

Flyer - Half Letter (8.5" x 5.5")

Bleed Area

Extend your background to fill the full 'bleed area' it'll make sure you don't end up with white edges when your Flyer is trimmed.

Artwork Area

This is the artwork safe area. Keep images within that you don't want trimmed.

Text Safe Area

Keep all important parts within this area - text, logo, icons. (Not your background -- you still need that for the bleed.)

*Please note your total file dimensions should include the bleed area so the final size should be 5.75" x 8.75"
